To Whom It May Concern,

Subject: Letter of Recommendation for Leo B Polackal

I am writing this letter to formally recommend Leo B Polackal for entry-level positions in Data Analytics and Business Intelligence. I have observed Leo's academic dedication and analytical capability during his training and project work in data analysis.

During his coursework, Leo consistently demonstrated a strong grasp of data manipulation, SQL querying, and visual reporting. Notably, he successfully completed end-to-end analytics projects, displaying high proficiency in Python, Excel, and structured problem-solving.

Beyond his technical aptitude, Leo is an active listener, a disciplined learner, and highly adaptable when facing complex data challenges. I hold him in high regard and am confident he will prove to be a valuable asset to any analytics team.

Sincerely,

[Instructor / Mentor Name]
